- Handle items carefully
- Use appropriate screws and equipment
- Wear gloves during installation

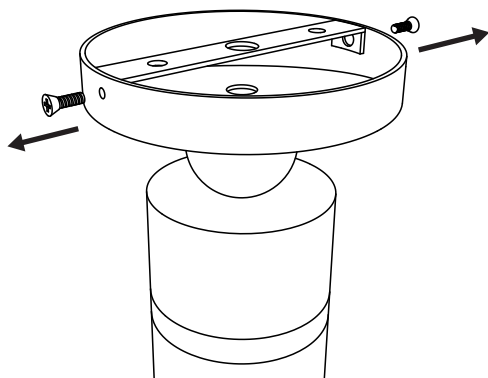

Assembly time

0h30

Number of people required

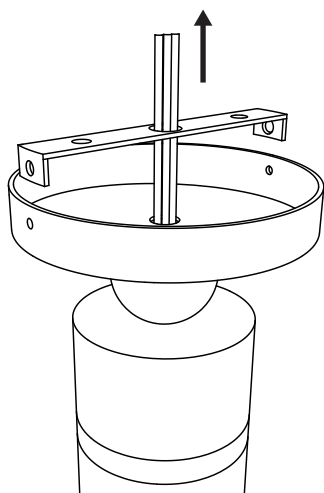

2

1

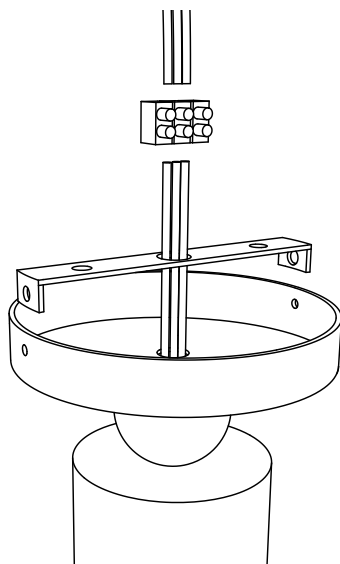

Unscrew the mounting plate from the canopy by removing the two screws.

2

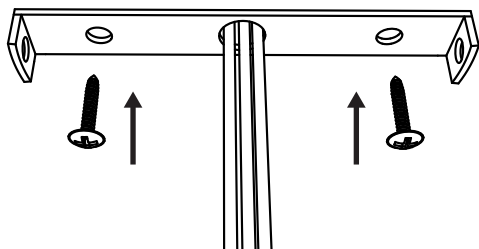

Gently pull the cables to bring them out of the canopy, and pass them through the central hole of the mounting plate.

3

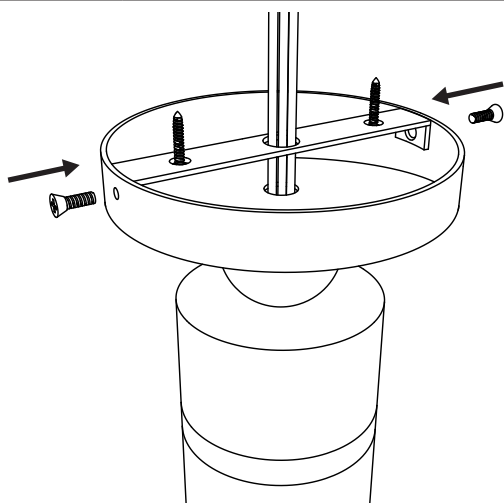

Connect the wires to the electrical network.

4

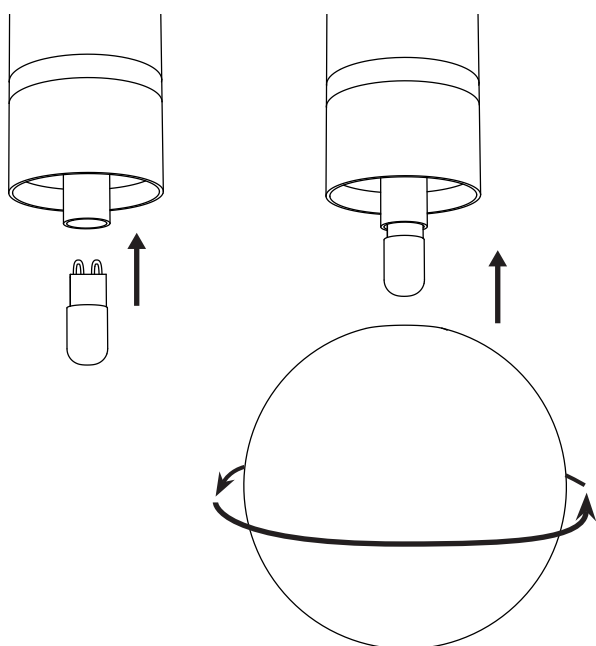

Position the mounting plate on the ceiling and fix it in place using the two screws.

5

Place the ceiling light onto the mounting plate and secure it with the two screws.

6

Insert the bulb into the socket. Screw the glass globe until resistance.

Warning ! Do not tighten more than natural resistance.
